TECHNICAL SPECIFICATIONS

Power supply/Power:	230 V ~ 50 Hz/140 VA Other voltages are available upon request
Reciprocating piston compressor (designed for use without lubrication and maintenance)	
Max pressure:	2.5 bar (approx.)
Compressor air output:	10 l/min (approx.)
Sound level (at 1 m):	58 dB (A) (approx.)
Dimensions:	27 (length) x 22 (width) x 11 (height) cm.
Weight:	2.200 Kg
External air inlet and with a replaceable high efficiency filter (50/70 µm)	
In compliance with Dir. 93/42/EEC (for the 230 V ~ 50 Hz unit only):	 0051
Approvals:	
Warranty:	Please refer to your local dealer

Can be used with....

JET NEBULISER TECHNICAL FEATURES

RF6 BASIC nebuliser	Average values measured with 0.9% saline solution in compliance with Flaem internal procedure. Certified with TSI Aerosizer 3220 computerised laser system in compliance with Flaem internal procedure.	In vitro characterization carried out at the Inamed Research GmbH & Co. KG on behalf of TÜV Rheinland Product Safety GmbH - Germany in compliance with the new European Standard for aerosol therapy appliances, Standard EN 13544-1. Further details are available upon request.
Minimum capacity	2 ml	
Maximum capacity	8 ml	
Flow to nozzle	6.2 l/min	
Operating pressure	0.9 bar	
Max delivery	0.42 ml/min (approx)	
MMAD	1.53 µm	3.5 µm
Particles % < 5 µm	99%	69%

RF6 basic is also suitable for pediatric use, since the non-spill system prevents medication from spilling out even if the nebuliser is accidentally turned upside-down. (Efficacy tested up to 5 ml, the average dose recommended for normal use).
